

DTS Customer Case Study

Project Management Services

Need:

A leading healthcare insurer based in Michigan needed help to support for their corporate Project Management Office (PMO).

Solution:

DTS staff is responsible for planning, executing, and controlling two complex software implementation projects focusing on PMI standards with combined budget of \$10.2 million dollars. We developed and managed detailed project work plans and schedules utilizing Microsoft Project. In project execution, we worked with two internal clients and coordinated the work effort of an outsourced vendor. We are involved in strategic planning for future initiatives and have developed creative solutions to strategic and operational needs. We assisted in establishing and improving project management methodologies, procedures and policies, coached and mentored individuals on the project team and provided feedback on performance to their leaders.

Benefits:

Successful delivery of projects adhering to corporate PMO standards.
